

SYMMETRY PRODUCT HIGHLIGHT

Custom Residential Elevator Cars

Customization of a residential elevator encompasses everything from selecting the material type and finish for panels, car gates, and fixtures, to choosing flooring and lighting.

Symmetry is masterful at creating custom residential elevator cars designed and built to reflect your customers' personal taste and compliment their surroundings.

Custom Residential Elevator Cars—Installed

ELEVATOR CAR WITH RAISED PANELS and ceiling features custom white paint and tiled flooring.

ELEVATOR CAR features Birch with custom stain finish, custom crossbuck design on lower panels, mirrors on the upper panels, and tiled flooring.

ELEVATOR CAR WITH SHAKER PANELS in Maple with custom stain finish, hardwood flooring, and rug. The fixture height has also been lowered to accommodate the customer's needs.
