Inline Gear Drive
Machine Room & Machine Room-Less Residential Elevator Applications

Drive Unit
2 HP Gearmotor with Brake

Car Frame

Two #60 Roller Chains (9,920 lbs. breaking strength)

Modular Rail Structure

Counterweight Assembly

Motor Controller Disconnect

Car Light Supply Disconnect

Motor Controller

Industry Leading Warranty
• Three-year limited parts warranty
Fits Where Others Won't.

With more standard features than any other residential elevator available, the Symmetry Elevating Solutions Inline Gear Drive is the industry leader. We offer battery lowering, digital position indicators on the COP and hall calls, custom wood sills and LED lighting as standard features. Our custom options lead the industry, as well.

Standard Features
- Travel: Maximum of 50’0” (minimum 12 inches between stops)
- Speed: 40 fpm
- Rated capacity: 1,000 lbs.
- Overhead minimum of 8’0” (96 inches) with remote controller; minimum of 9’0” with controller in hoistway with a 7’0” interior car height
- Pit depth: 6” minimum (8 inches preferred)
- Two stops
- Single opening
- Three-year limited parts warranty

Equipment
- 208/230 VAC, 60 Hz, 20 amp, single-phase power supply for motor controller
- 120 VAC, 60 Hz, 15 amp single-phase power supply
- Code-compliant electrical disconnects included
- Inverter-controlled variable speed Inline Gear Drive unit with counterweight and 2 HP motor
- Two #60 roller chains [9,920 lbs. breaking strength]
- Car frame assembly
- Modular 6½ lb. T-rail structure
- Manual lowering device

Safety Features
- Slack chain safety device
- Two upper and one lower final limits
- Machine stop switch
- Motor controller supply disconnect (located in controller)
- Car light supply disconnect (located in controller)
- Pit stop switch
- Car-top stop switch
- In-car emergency stop switch and alarm
- Safety switch for car gate(s)
- Battery backup emergency car lights and alarm
- Electro-mechanical hoistway door interlocks (doors by others)
- Light curtain monitoring the car entrance

Controls
- Programmable Logic Controller (PLC)
  - Located in shaft in machine room—less application
  - Located within 50 feet of motor in machine room
- Non-selective collective automatic operation
- S.M.A.R.T. system [Self-Monitoring Alert Response Technology]*
- Car Operating Panel (COP) with LED floor position indicator
- Recessed phone box (phone jack included)
- Hall stations with call buttons and LED floor position indicator
- Automatic car lighting
- Single floor designated car homing
- Uninterruptible Power Supply (UPS) for car lowering and automatic car gate/door operation (if provided) in the event of a power failure

Car Features
- Car size up to 15 square feet
- 7’0” interior car height
- Birch, Oak or Maple flat veneer interior walls with flat ceiling
- Matching wood handrail
- Matching wood car sill
- Unfinished plywood floor with sill set for ¾” (flooring by others)
- Two energy-saving recessed LED lights with Black trim rings
- Light Oak, Birch or White 7’0” laminate accordion door

Optional Features
- Up to six stops
- Single automatic push-button operation
- Custom car size up to 18 square feet**
- Custom car height
- Shaker or Recessed panel car with flat ceiling
- Shaker, Recessed or Raised panel car with matching ceiling
